

Scientific program		
28th September 2012 (Friday)		
Time	Speakers	Title
14.00 – 16.00	Registration	
16.00-16.45	Opening ceremony	
16.45 – 17.30	Wacław Szybalski (McArdle Laboratory, Madison, USA)	<i>Gene therapy in 1962: Transfection of the HPRT gene into human cells</i>
17.30 – 18.00	Seppo Yla-Herttuala (University of Eastern Finland, Kuopio, Finland), president of the European Society for Gene and Cell Therapy	<i>History of gene therapy</i>
18.00 – 19.00	<i>Get-together cocktail</i>	
19.00 – 20.00	Presentations of students and friends of Professor Wacław Szybalski: <ul style="list-style-type: none"> • Ewa Łojkowska (University of Gdansk, Poland), Stanisław Kosiedowski - <i>Wacław Szybalski: from Lwów to Madison - life of scientist and philanthropist</i> • Jacek Bigda (Gdansk Medical University, Poland) - <i>Wacław Szybalski for novel immunotherapies</i> 	
29th September 2012 (Saturday)		
09.00 – 09.30	Alain Fischer (INSERM U768, Paris, France)	<i>13 years of effective gene therapy for primary immunodeficiencies. Where do we stand?</i>
09.30 – 10.00	Adrian Thrasher (UCL Institute of Child Health, London, UK)	<i>Gene therapies for immunodeficiency diseases</i>
10.00 – 10.30	Seppo Yla-Herttuala (Kuopio, Finland)	<i>Gene therapy for cancer and cardiovascular diseases</i>
10.30 – 11.00	Anne Galy (Genethon, Evry, France)	<i>Development and applications of lentiviral vectors for hematopoietic gene therapy</i>
11.00 – 11.30	<i>Coffee break</i>	

11.30 – 12.00	Gustavo Mostoslavsky (Boston University, Boston, USA)	<i>iPS cells and nuclear reprogramming with factors: another success story by gene therapy</i>
12.00 – 12.30	Alicja Józkowicz (Jagiellonian University, Krakow, Poland)	<i>Gene and cell therapy for revascularisation</i>
12.30 – 13.00	Chantal Pichon (CNRS, Orleans, France)	<i>Deliver and treat with sounds: promises and ongoing challenges for gene transfer</i>
13.00 – 14.00	Lunch	
14.00 – 14.30	Patrick Midoux (CNRS, Orleans, France)	<i>Building up artificial virus for gene therapy: current status and standpoints</i>
14.30 – 15.00	Andrzej Mackiewicz (Medical University, Poznan, Poland)	<i>Genetic vaccine for cancer treatment</i>
15.00 – 15.30	Claudine Kieda (CNRS, Orleans, France)	<i>New cell-delivery of anti-cancer gene therapies</i>
15.30 – 16.00	Józef Dulak (Jagiellonian University, Krakow, Poland)	<i>Gene therapy on demand: site-specific regulation</i>
16.00	End of meeting
